

Document Management

EHR beyond boundaries of expectations...

H.I.M. ON CALL, Inc.'s Web-based Document Management solution, **DOCUXP**, was developed by Health Information Management professionals to manage access to electronic documents, process, workflow, and reporting.

DOCUXP's powerful and flexible design lends itself perfectly to a wide array of functionality, including management of the Discharge Not Final Billed (DNFB), remote coding, cancer registry abstracting, release of information, physician completion, etc. Most importantly, **DOCUXP** provides instant access to healthcare providers in an expedient and reliable manner.

DOCUXP is easy to install and requires no capital investment. Incorporates HL7 interface capabilities.

...yet reasonably attainable!

DOCUXP

EHR beyond boundaries of Expectations!™
H.I.M. ON CALL, Inc. 2003-2008

Features & Benefits

- **Flexible** – can be implemented as a concurrent EDM or long-term archiving solution.
- **Simultaneous Access** – immediate and simultaneous access to the Patient Record.
- **Workflow Management** – allowing for customized management of the Patient Record for critical functions such as Coding, Audits, Abstracting, Release of Information, etc.
- **Advanced Search Capabilities** – search for documents/records or data by one or more of the indexed values.
- **Robust Database** – allows for millions of data to be stored and fast processing of queries.
- **Secured** – meets all current security standards by incorporating a wide variety of authentication methods, firewalls, encryption, passwords, and audit trails for Accountability of Disclosure reporting.
- **Printing & PDF Generation** – can print, save, or convert to PDF, based on user logon permissions.
