

# Denial & Audit Management System

Product of **AVIANCE** Suite...

A solution not just for RAC!

## Features

- Manage **ALL** types of audits & denials, including RAC, internal audits, retrospective data quality reviews, compliance, privacy, etc.
- All audit correspondences and records can be scanned and electronically stored for easy viewing.
- Assignments of cases and projects to anyone in your organization.
- Track and reconcile all other types of external reviews coming from third party payors and governmental regulatory agencies by denial codes.
- The ability to create customized data fields for data collection and reporting.
- Alerts that will keep you on track!
