

AVIANCE DNFB Management

POWERFUL Revenue Intelligence and DNFB Data

Complete Solution

Single Database

Avoid the ups and downs of DNFB management with AVIANCE. One repository stores all your unbilled accounts with easy filters, sorting and trending reports. Detailed snapshot dashboards save time for finance executives and IT personnel.

Manage Change

Measure Impact

Turn your DNFB data into dynamic information with AVIANCE. Our system pulls data from your core systems giving you freedom, flexibility and real-time alerts. Predict revenue risks ahead of time and reduce costs per case with AVIANCE DNFB Management.

Account Collaboration

Assign, Alert, Note

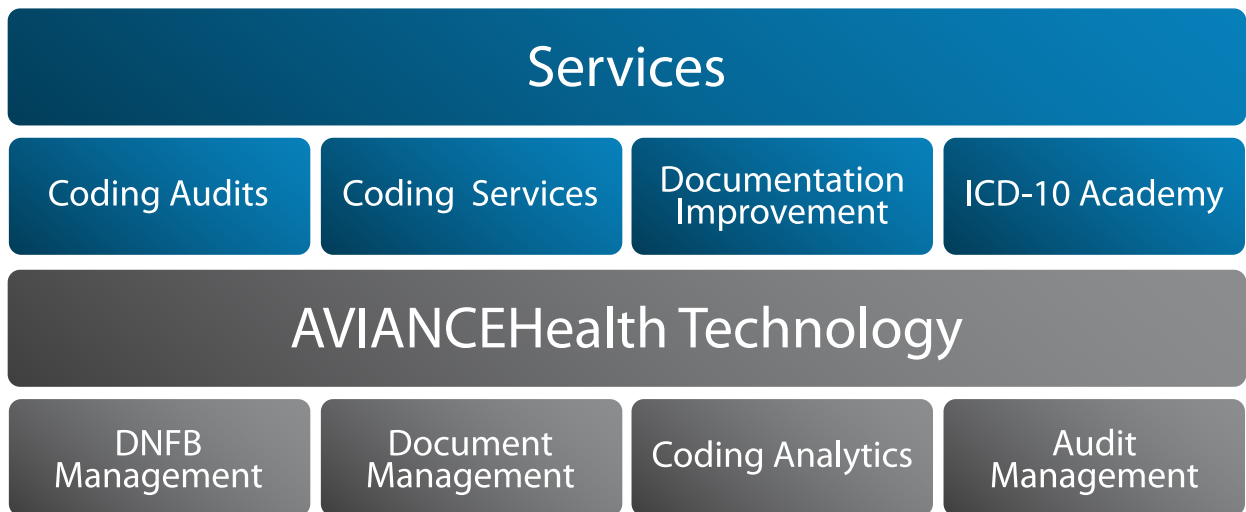

Keep your account teams connected and managers at ease with AVIANCE. Our workflow assigns, tracks and alerts users automatically. Electronic notes tell the complete story, saving everyone investigative time and telephone tag headaches.

“With H.I.M. ON CALL’s DNFB Management application I was able to identify all of our unbilled accounts for one insurance type with a click of a button! This saved me hours of work and prevented denials by avoiding missing our billing deadlines. Awesome product!”

Regina A. Blakeslee, MPA, RHIA, CTR
Healthcare Leadership Consultant

H.I.M. ON CALL does more than just track your discharged-not-final-billed. We supply the people, technology and services you need to make better revenue cycle decisions, with one-click identification of high dollar accounts, aged accounts and more. Finance and HIM executives easily capture the root cause of delays in coding and billing. The end result? A more data-driven revenue cycle and lower-cost accounts receivables.

Who We Are

H.I.M. ON CALL is a technology-enabled, health information management and coding services company. Started in 1998, we bring together coding, documentation and revenue cycle professionals to design better coding workflows and tighten operational efficiency.

Behind every service we provide, H.I.M. ON CALL offers data-rich technology tools for predictive modeling, case mix analysis, DNFB monitoring and coding compliance. Our customers have access to a full complement of healthcare professionals, including MDs and RNs, as well as a wide array of allied health professionals with RHIA, RHIT, CHP, CPAM and CCS credentials to assist in nearly any HIM, coding, documentation or revenue cycle project.

“Our customers set their own DNFB targets and we make sure they hit them with AVIANCE DNFB Management.”

*Manny Peña,
CEO, H.I.M. ON CALL*
