

Coding Services

COMPLETE Solutions for ICD-9, ICD-10 or Both

Remote or Onsite Complete Solutions

H.I.M. ON CALL offers you flexible options - using your technology or ours - for outsourced coding, backup support or completely outsourced alternatives.

All Record Types One Stop Coding

Inpatient, outpatient, ER or office visits, H.I.M. ON CALL experts are ready to code the facility and professional component of all your cases; even interventional radiology.

Credentialed Staff Quality Guaranteed

Heavy on service and light on your budget, H.I.M. ON CALL brings you experienced, credentialed HIM professionals who can take on your most demanding coding needs.

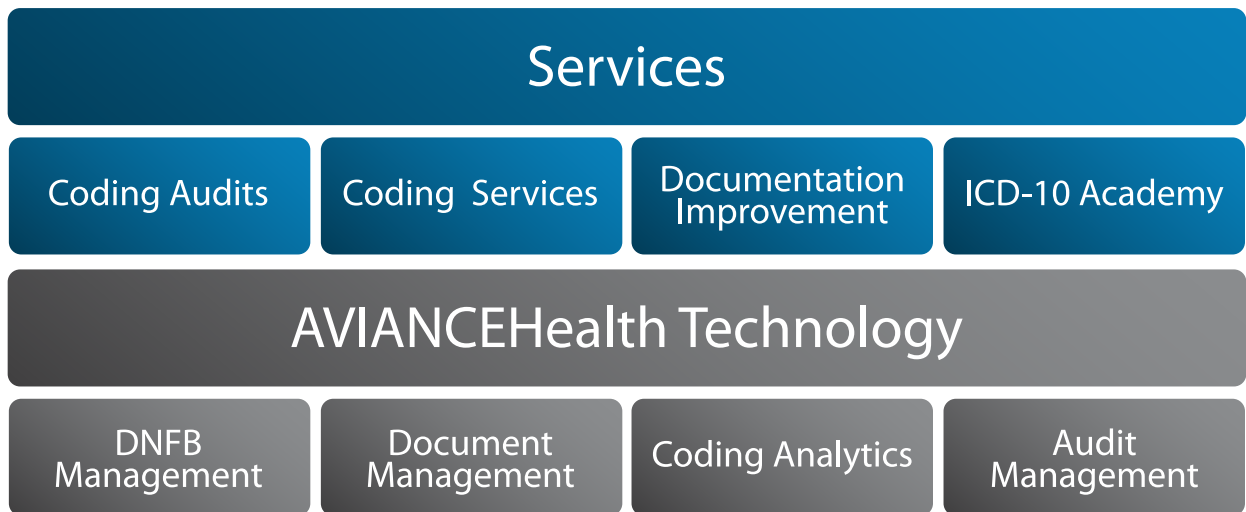

"H.I.M. ON CALL employs highly qualified coding staff and delivers an exceptional level of accuracy. They are responsive to our needs and live-up to their guarantees."

*Lynn Wall, RHIT, CCS Director Corporate Coding
St. Luke's Health Network*

H.I.M. ON CALL does more than just help you code. We supply the people, technology and services you need to make better coding decisions, with complete access to DNFB analytics, coding performance data and a full-feature remote coding solution. The end result? A more data-driven HIM department and lower-cost coding operation.

Who We Are

H.I.M. ON CALL is a technology-enabled, health information management and coding services company. Started in 1998, we bring together coding, documentation and revenue cycle professionals to design better coding workflows and tighten operational efficiency.

Behind every service we provide, H.I.M. ON CALL offers data-rich technology tools for predictive modeling, case mix analysis, DNFB monitoring and coding compliance. Our customers have access to a full complement of healthcare professionals, including MDs and RNs, as well as a wide array of allied health professionals with RHIA, RHIT, CHP, CPAM and CCS credentials to assist in nearly any HIM, coding, documentation or revenue cycle project.

"Not all coding services are created equal."

*Manny Peña,
CEO, H.I.M. ON CALL*
